

Job Title: Surveyor (Contract)

INTRO

If you thrive on success and team work in a team culture, Agnico Eagle offers career opportunities on a global scale. We provide rewarding and challenging work that will help you grow your skills and your career. Agnico Eagle is committed to creating meaningful opportunities for our employees and we encourage everyone who works for us to contribute to their full potential. We are an equal opportunity employer and value diversity. We provide a safe work environment and seek to ensure all individuals are treated with respect and dignity, free from harassment, discrimination, bullying and retaliation. All employment is decided on the basis of qualifications, merit and business need. Disability-related accommodations during the application and selection process are available upon request. Interested? We hope you are.

Location: Macassa Mine, Kirkland Lake, ON

Rotation: 7/7 11 hours

Duration: 12 Months

This role is not a Camp Based opportunity.

WHAT DO YOU VALUE IN A CAREER?

At Agnico Eagle, our values never waver. We believe in trust, respect, equality, family and responsibility. Why? Because they express who we are and they have helped us succeed in business for over 60 years.

WHAT DOES AGNICO EAGLE VALUE?

We value you – your unique set of skills and experience. We value your willingness to build those skills and make a meaningful contribution to our company. And, we value your commitment to treat every person on our team with respect, helping us to operate safely, protect the environment and make a positive contribution to our local communities.

MACASSA MINE

Agnico Eagle Mines' Macassa Mine is situated on the traditional homelands of the Apitipi Anicinapek Nation, Beaverhouse First Nation, and Matachewan First Nation. In honoring our relationships with and commitments to our Partner Nations, Agnico Eagle prioritizes the hiring of Members from these Nations. To support this commitment, members from these Nations seeking employment opportunities at the Macassa Mine are encouraged to self-identify during the job application process. This ensures that we can consider your application appropriately in line with our dedication to supporting our Partner Nations.

ABOUT THE OPPORTUNITY

Based at the Macassa Mine, we currently have an exciting opportunity for a **Surveyor** to join our Survey Team for a **12-month contract**. This is an entry level position into our technical services team.

The Macassa Mine is a high-grade gold producer, with grade improving at depth, and a key valuation driver for Agnico Eagle. Located in the Town of Kirkland Lake, Ontario, the Macassa Mine remains one of the highest gold grade mines in the world. Macassa commenced operations in 2002, and with the discovery of the South Mine Complex has been able to increase its level of production significantly over the past five years. The mine is located in an area with well-developed infrastructure, including a provincial highway, a railway system and a private airport. High-grade ore is processed at the Macassa Mill, which currently has available capacity and is located in close proximity to the mine.

As a **Surveyor**, your role will consist of marking up development lines, development pick-ups, long-hole drill ring mark-ups, CMS surveys, drill hole gyro tests, updating survey drawings, issuing survey plans and doing month end calculations. This role requires you to be comfortable in the underground environment.

RESPONSIBILITIES

- Survey control points advanced, data downloaded and entered into the computer (Deswik or other related programs).
- Update all level plans using the software Deswik, on an as needed basis.
- Provide reference tools for the mine department to operate effectively/accurately.
- Issue development-heading updates.
- Survey of production hole's toes and collars and perform gyro tests to support drill and blast design.
- Survey all diamond drill holes, service holes, and others as requested.
- Cavity monitor surveys of all stopes, raises, etc.
- Provide survey support to operations in both underground and surface locations.
- Track and report monthly advance of mine development and rehabilitation.
- Ore and concentrate stockpile measurement on a bi-monthly basis.
- Perform routine check surveys to ensure precision and accuracy are maintained in all mine survey data and control points.
- Keep track of required survey equipment calibration and repairs.
- Complete all survey month-end calculations accurately and within a timely manner.
- Perform other duties, as required.

QUALIFICATIONS

To be successful in this role, you must have:

- The technical aptitude and ability to learn different computer software. We will teach you how to use any specific software required for this role.
- The capability to work in a fast-paced physical working environment.
- Precision, accuracy, and attention to detail.
- The ability to work under pressure.
- A full G-class license.
- Reliability and ability to self-manage.
- The ability to work in an underground environment (including tight spaces, dusty/dirty working areas with low light).
- Strong people skills and an ability to work in a team environment.

Assets of this role:

- Working knowledge of mine design software is an asset (Deswik, AutoCAD, Promine).
- Knowledge of total station setting.
- Knowledge of use and how to calibrate associated survey equipment.
- Survey/Engineering Technical Diploma or equivalent experience
- Experience in underground operating mine sites.

WHAT'S IN IT FOR YOU?

Together, we are building a world-class gold mine and our success is determined by the hard work and dedication of our team. All of our team members are rewarded with on-the-job perks, including:

- Competitive salary
- Training and learning opportunities

Should you be the successful candidate for this role, you will be contacted by a member of our Human Resources Department to schedule an interview.
