WHAT DOES AGNICO EAGLE VALUE?

At Agnico Eagle, our values never waver. We believe in trust, respect, equity, family and responsibility. Why? Because they express who we are, and they have helped us succeed in business for over 60 years. We value **you** – your unique set of skills and experience. We value your willingness to build those skills and make a meaningful contribution to our company. And, we value your commitment to treat every person on our team with respect, helping us to operate safely, protect the environment and make a positive contribution to our local communities.

ABOUT OUR OPERATION

Want to learn more about the Macassa Mine? [Click here!](#)

Agnico Eagle Mines' Macassa Mine is situated on the traditional homelands of the Apitipi Anicinapek Nation and Matachewan First Nation. In honoring our relationships with and commitments to our Partner Nations, Agnico Eagle prioritizes the hiring of Members from these Nations. To support this commitment, members from these Nations seeking employment opportunities at the Macassa Mine are encouraged to self-identify during the job application process. This ensures that we can consider your application appropriately in line with our dedication to supporting our Partner Nations.

In compliance with the Accessibility for Ontarians with Disabilities Act, Agnico Eagle Mining (AEM) is committed to providing accommodation for people with disabilities. Accommodation is available, upon request, for candidates participating in the recruitment process.

YOUR NEXT CHALLENGE:

Reporting to the Senior Resource Geologist, you will be part of the Production Geology Department. You will also ensure that the goals and objectives are achieved while promoting and respecting Agnico Eagle's values, Health & Safety Code of Conduct and the environment.

- Collection of pertinent geological data from drill core;
- Entry of geological data into industry standard software;
- Ensure best practices are followed regarding core logging, sampling and database management;
- Assist in the planning and execution of diamond drill programs;

- Communicate effectively and contribute to geological discussions;
- Internal reporting as required;
- Other tasks as assigned by supervisor.

WHAT YOU NEED TO SUCCEED

- Bachelor's degree in Geology or Earth Sciences;
- Registered GIT or PGeo preferred;
- Strong academic and applied background in orogenic gold deposits;
- 1-3 years experience in mineral exploration, including core logging;
- Experience with industry standard software: DHLogger, Fusion, Leapfrog;
- Experience working on a mine site is considered an asset;
- Excellent working knowledge of all Microsoft Office Suite applications especially Outlook, Excel, Word & PowerPoint.
